

# LET'S DISCOVER NEW QUESTION WORDS

1. Read the questions and write a short answer. If you don't know it, look it up on the Internet. (continued)

- i) How old is Québec City? Quebec City is 417 years old.
- j) How many letters can you count in the word dragonfly? I can count nine.
- k) How tall are you? I am five foot seven.

2. Look at the incomplete questions. With each answer, find and write the appropriate missing question word.

- a) How long is the movie? Two hours and 10 minutes.
- b) How tall is your brother? One metre and 52 centimetres.
- c) How much money can you win in the lottery? 12 million dollars.
- d) How long is your hair? About shoulder length.
- e) How many animals can you find in this zoo? About 300 animals.
- f) How old is your mother? She is 36.
- g) How quickly do you think you can finish your exam? Quickly! Give me 5 minutes.
- h) How big is an elephant? It is bigger than a rhino.
- i) How tall is the Eiffel Tower? It is 324 metres tall.
- j) How fast can you run 100 metres? It takes me 13 seconds.
- k) How much flour do you need to make pancakes? 2 cups.

3. CHALLENGE TIME! Prepare six questions for your friends. Use the *how + adjective* structure to write well-built questions.

- a) How long is your best friend's hair?
- b) How old is your oldest cousin?
- c) How much sugar does a cake contain?
- d) How many siblings do you have?
- e) How many provinces are there in Canada?
- f) How big is your house?
